

# Steps to Choosing Career Pathways

1

Step

## Interest Career Assessments

Interest assessments ask questions about your skills, interests, values, personalities and abilities to help you determine career paths you may enjoy.

2

Step

## Career Exploration

Take opportunities to explore careers through career fairs, volunteer work, job shadowing, camps and workshops

3

Step

## Career Research

Research provides information about job responsibilities, qualifications/ education, and salary ranges, enabling you to make informed career choices.

4

Step

## Choose a Beneficial Pathway

Choosing a CTE pathways provide you with benefits, such as gaining real-world skills, soft skills development, networking opportunities with industry professionals, certifications, and a potential for early career entry.
