

Get Started Today

Please review the opportunities listed below and check those you are interested in for partnering with the school. Keep one copy for your records and leave the other with the teachers so they can follow up with you after the event.

- Guest Speaking**
Address an audience, providing insights knowledge, or inspiration about your work.
- Facility Tours/Field Trips**
Offer students the opportunity to tour your facility, providing them with firsthand experience of operational processes.
- Job Shadowing**
Enables a student to spend time with a specific industry professional and observe them for a specified period of time, usually one workday.
- Mentorships**
Mentorship programs are structured, school-coordinated methods that enable a student to learn about an industry and the workplace from a selected professional who has experience in the field.
- Mock Interviews**
Allow students to practice their interview skills with a professional
- Career Day Participant**
Showcase your work for students in an expo-like setting
- Internships**
Enable students to gain applied experience by working for a local employer, build professional and technical skills, and make connections in a field of interest.
- Industry-Based Certifications**
Partner with the educational institution to provide guidance and instruction for students to obtain an industry-based certification.
- Serve on an Advisory Board**
Offer tailored guidance on program curriculum while maintaining firsthand awareness of classroom activities, ensuring students are equipped with the necessary skills and knowledge for success in the professional realm
- Donate Equipment**
Donate equipment and/or assist instructors in setting up learning space for students
- Apprenticeships**
Hands-on learning programs where individuals gain skills through practical experience alongside formal education, often leading to certification in a specific trade or profession.
